

Our Question:

When students leave...Where do they go?

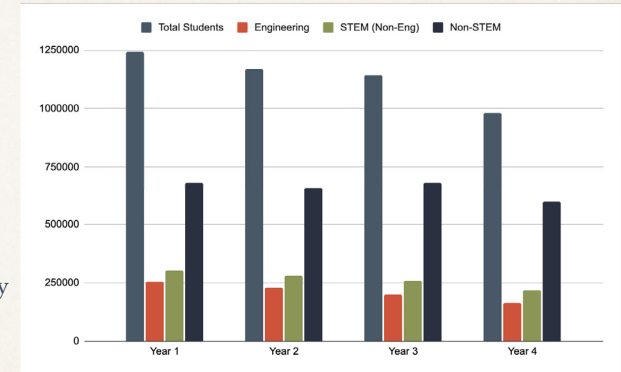

1. When students in the MIDFIELD data set leave the Engineering discipline, what majors do they tend to choose instead?
2. Are these predominantly other STEM majors?
3. Or do these students leave STEM altogether?

Visualising the data...

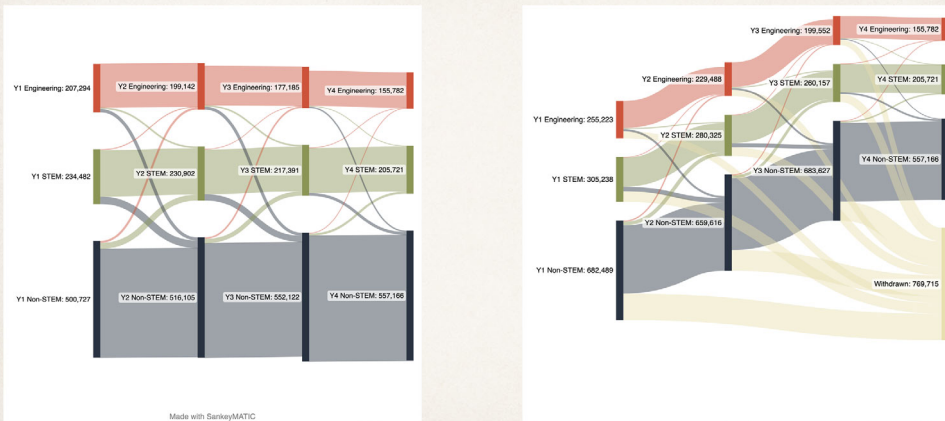

Problems with this image:

1. The issue of time
2. The issue of "movement"
3. Basically, this graph displays numbers...but doesn't tell a story
